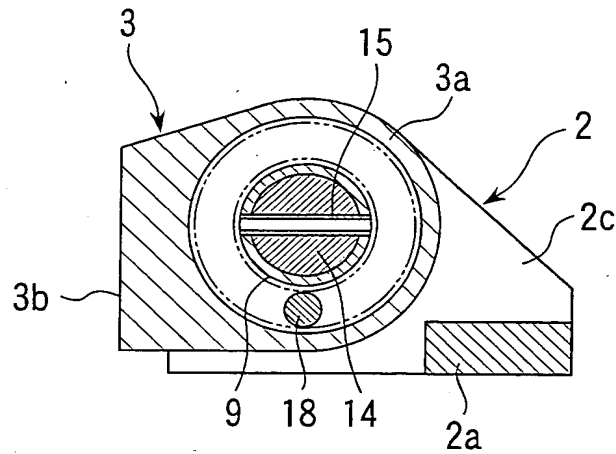

FIG. 9

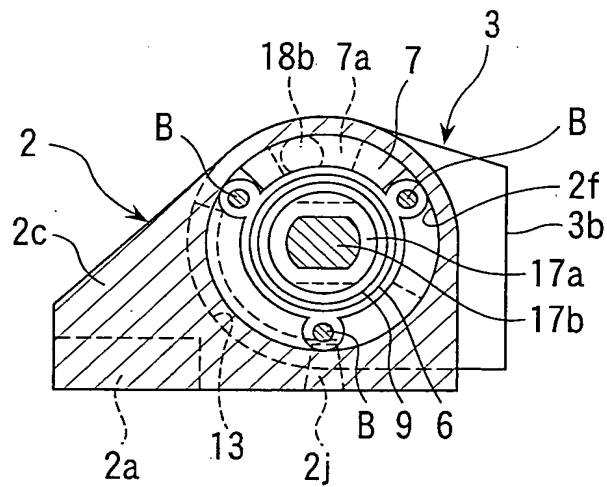

FIG. 1 is a perspective view of a first embodiment of a device. The device consists of a main body 3, which is a thick, roughly square plate with rounded corners. In the center of the main body is a large circular opening 9. Surrounding this opening is a ring-like component 7. A base plate 2 is attached to the bottom surface of the main body. The base plate has a rectangular section 2a on the left and a semi-circular section 2b on the right. A small protrusion 2j is located at the bottom center of the main body. Other labels include 3b, 7a, 9b, 3f, 3e, 3d, 13, 9b, and 11.
